WARNING.

It shall be unlawful for any person to drive any vehicle of any kind over any line of hose, or to drive or ride any horse or animal over the same, or to stand thereon, or in any manner interfere with any line of hose at a fire.

HOW TO TURN IN FIRE ALARM.

The Key to Fire Alarm Box is inside a small Iron Box with glass door, alongside the large Box. In case of Fire, Break the Top glass, take out the Key on inside, open the door of the Large Box. You will find a Hook on the inside, which is to be pulled down as far as it will come and then let go. If you put your ear to the Box you can hear the machinery working. You can then be assured that the alarm has gone in.

HOW TO SEND IN AN ALARM BY TELEPHONE.

First of all, keep cool; then call up "Central" (don't try to get the Fire Department); tell operator where fire is, giving the street and number correctly. Then have some one stand out in front of the building, so as to inform the Fire Department where the fire is.

The operator at the Telepone Office will notify the Fire Department.

EXAMPLE—Ring. "Is this 'Central?' There is a fire at 47 D Street. Understand?"

'Central' will then notify the Department.

Through Orange and Lemon Groves

Reached only by the NATIONAL CITY AND OTAY RAILWAY.

The Popular Sixty Mile Excursion over

"The Lemon Line"

Leaving San Diego at 9:30 a. m. daily, crossing the boundary line at Tia Juana, giving ample time to visit the Mexican custom house curio stores and other places of interest, buy a fine cigar, mail a postal card to your friends in the United States, and after having your handkerchief stamped as a souvenir memento of the Republic, again take the train for National City, where lunch may be procured at Olivewood, the beautiful grounds of Mr. W. C. Kimball, and enjoyed in the shade and fragrance of orange trees and roses; or at the International Hotel, lately refitted with commodious parlors, waiting rooms, etc., for free use of tourists; or if your time is limited, return to San Diego, arriving there at 1:30 p. m. After lunch, visit the great Sweetwater Dam, 100 feet high, 500 feet long, and 46 feet thick at the base: built of solid granite, making in all a fine day's outing and a trip through the back country, returning to San Diego at 4:44 p. m.
